

Profiling Sheet :-

1) Write your career objective.

An As an CS student with specialization in AIDeS , seeking an entry-level opportunity to apply theoretical knowledge and practical skills in ML , data analysis and software development while contributing to organizational success .

2) Why do you want to be an engineer?

An I want to be an engineer because technology has the power to solve large-scale problems. As a computer science student specializing in AIDeS , I am motivated by the ability to design intelligent systems, analyze data for better decision-making , and create solutions that improve efficiency and accuracy across industries .

3) Write about projects or internship you have done / are doing along with the learning .

An) Projects :-

(i) Airline Route Optimization :- I worked on a project focused on optimizing airline routes using data analysis and algorithmic approaches. The objective was to identify efficient routes by considering factors such as distance , cost , and operational constraints. The project involved analyzing datasets, applying optimization logic and evaluating the results to improve efficiency and reduce overall operational cost .

Learning outcomes :- through this project , I gained practical understanding of optimization techniques , graph-based problem solving , and data driven decision making . I also improved my analytical thinking and learned how real-world constraints impact algorithm design .

I am still trying to improving this project and adding new more things and ideas .

4) What would you consider a significant achievement in your life and why?

Developing projects such as Airline Route optimization and a resume Analyzer is a significant achievement for me. Why? - These projects allowed me to apply theoretical concepts to real world problems, work independently and overcome technical challenges. Completing them strengthened my understanding of AI and Data Science and confirmed my interest in building practical, impactful solutions.

5) Write about a failure of yours which you consider to share. What have you learned from it?

One failure I faced was difficulty in managing academics and skill development during the initial phase of my course. This taught me the importance of time management, consistent effort, and learning from mistakes. As a result, I became more disciplined and confident in handling challenges.

6) What are your strengths? Write one or two instances where you have demonstrated your strength.

My strengths are I am a quick learner and adapt to new technology easily. I have strong problem solving and analytical skills. For instance in that I applied my strengths in managing academics with learning technical skills.

Q7 Write about your weakness. How you are overcoming it.

A7 I sometimes take extra time to do work perfectly, which leads to delay. I have been overcoming my weakness by setting time boundaries and analysing work.

Q8 What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?

A8 The most difficult moment I faced was adjusting to the academic demands of my engineering course. Perseverance, disciplined learning, and a positive attitude helped me overcome the challenge and grow stronger.

Q9 Apart from academics, what else are you interested in?

A9 I am interested in learning about spirituality, as it helps me develop self-awareness, inner discipline and a positive mindset. I also enjoy playing football, which helps me stay physically active, improves my teamwork skills and teaches me the importance of discipline and persistence.

Q10 Give an example of an area, concept or thing that you are absolutely passionate about.

A10 I am deeply passionate about using AI/DS to solve real-world problems. What excites me most is the ability to convert raw data into meaningful insights and intelligent systems that support better decision-making.

Q4 Describe yourself as an individual in 5 lines

- Ans
- (i) I aim to become responsible and independent in life.
 - (ii) I value discipline, consistency and personal growth.
 - (iii) I enjoy playing football and staying active.
 - (iv) I live in present and keep people happy those who are surrounded.
 - (v) Always learning and adapting reality.

Q5 What kinds of people do you enjoy working with?

Ans I enjoy working with people who are respectful, cooperative and open to learning. I appreciate team members who communicate clearly, share ideas, and support each other while working toward a common goal.

Q6 What kind of people you don't want to work with?

Ans I find it challenging to work in environments where there is lack of communication, accountability or mutual respect.

Q7 What do you expect from your first job?

Ans I expect opportunity to learn, gain practical exposure and understand real-world work culture.

Q8 In past year, what have you been dissatisfied about in your performance?

Ans I have been dissatisfied with myself and my overall performance, particularly in academics. But now I improved it.

Q9 Rate yourself out of 5 in verbal communication.

Ans I would rate myself 4 out of 5. I am fairly comfortable expressing my ideas, especially in familiar situations but I need improvement in confidence and fluency in formal settings. To improve it, I actively participate in discussion and presentation.

17) Who is your role model? What are qualities of the person you would like to see in your personality & why?
An Bhagat Singh was one of India's most courageous and influential freedom fighters. He was known for his fearless attitude, strong sense of patriotism, and revolutionary thinking. At very young age, he dedicated his life to the freedom of the nation.

18) Write few lines about your friends.

A My friends they are genuine people in my life who helped me always. They are kind, determined and hardworking people.

19) Write 3 leadership qualities. How many do you possess
Write an instance where you have applied those ?

- (i) Responsibility
- (ii) Communication
- (iii) teamwork

20) So finally, tell us something more about yourself or introduce yourself.

A I am motivated and responsible individual who is focused on self-improvement and learning. I take my academics seriously and to give my best in everything I do.
